Another couple of months have zipped by. Rides galore between RAG and AV. Make sure and look at both activities calendars so you don't miss anything.

By the time this goes out we will have had a "Ride and Movie" night. Thanks to LOH for making it happen. (I will have missed due to previous commitments).

I want to continue our membership push. We made it up to the low 90's last year and I'd like to hit the 100 mark. So please tell your Harley friends what a great group we have and send them to the website to see all the rides. Remember: Live to ride, ride to eat!!!

There is one event that I want to push, Thunder on the Lot. First: its a charity event that supports all types of charities for children. Second: its our sponsoring dealership who is putting it on. Lots of activities and events...Especially the Poker Run with start at Inyo 76 from 7-10 on sun, 15 Jun. On a yearly basis Ron has given at least a \$1000 to the Ridgecrest Boys and Girls Club. Since that is also one of our charities, we are hoping to hand them a nice check for approx \$1500. For those that don't remember the challenge that Josh put out at the meeting....he challenged anyone to match his additional \$100 donation to our charity pot. We only raised around \$700 this year and would like to make it to \$1000....I'm in...only need a couple more and we are there!!!

The 21st we are doing a ride up to Fraiser Park for lunch. Great ride, very little freeway. A bit longer ride, 250 miles but me and Mike did it last year and lots of twisties for the true enthusiast....Hope to see you there....

That's it for this edition. Remember the motto, its all about having fun but keeping it safe. Keep the shiny parts up and the rubber down.

Ghost Rider

Hi HOG friends,

This month my newsletter is going to read like a magazine article (I hope) because I plan on submitting it to HOG Tales and American Iron magazines to see if they will put it in an upcoming issue.

The alarm went off at five o'clock in the morning, not that I needed an alarm with the excitement of what lay ahead of us, waking myself and my wife Sandra early.

Laying there in the pre-dawn darkness a thought came to us - one bike (the Silver Ghost, our 2004 Road King Custom) two people, and miles of open road and unseen country, we had to ask ourselves, are we ready for a road trip? And the answer was absolutely!

After three years of planning and canceling the trip the last two years for different reasons the day had finally come for us to leave on our nine day Santa Fe, New Mexico and Four Corners region tour. With the Silver Ghost already packed and gassed all we had to do was put on the leather, strap on the helmets, and hit the road.....

After two years of trying and 2214 miles we had finally completed our trip. Now we can start planning our next one until the day comes when we ask each other – are you ready for a road trip?

From your Editor:

This is a tease of the article that Mike wanted me to put in here, however due to space constraints I was not able to put the whole thing in here. Don has posted the whole article on the website and I encourage everyone to go out and read it. It's a well written article that I feel everyone should take the time to go and read if you have not done so already. Silk

Hi Everyone!

Hope everyone is enjoying the nice weather we've been having. I still would like to get a group photo to put in the album and Red Rock Canyon was suggested as a possible site to take a picture. However, if you have a different place in mind where you would like us to take a picture just let me know...all suggestions are welcome! If I don't hear from anyone within the next couple of weeks then we will probably go ahead and schedule a morning ride down to Red Rock.

Just a reminder: if you have any photos of rides you'd like to have in the yearbook and you haven't given them to myself or Don, be sure to get those to us, I'd like to include as many as I can!

See ya on the rides!!  
Susan

*Ramblings from Silk*

Hi to everyone again.

Another couple of months have passed again and I set here putting the final touches on the newsletter.

We have had quite a busy couple months. Usually I like to put pictures of all the rides we have done in here, however this time I was not able to put all them in here. I tried to pick from all the wonderful pictures that are on the website to include in here. I probably missed a lot of really good pictures so your best bet is to go out to the website as often as you can to check and see what's new out there. Don is always adding more stuff to the website and its well worth the trip to take a look at what's there.

One of the rides that Deb and I went on was the ride up to Whitney Portals, this was the first time I had been up there for several years and even though I had looked at the pictures from the last couple years Deb and I screwed up and we both ordered pancakes. What a mistake. They are HUGE. Neither one of us came even close to finishing them but at least the Jays had a good breakfast. I imagine they get to eat lots of pancakes from people like us that either forget about the size or have never had the "pleasure" of them.

I want to remind everyone that the ride to Yosemite is coming up at the end of July. We will be staying in Oakhurst like we have done in the past and riding into the park on Saturday morning. If you have not been there or have not been there on a bike I encourage as many of you as can to go along with us. The park is one of the countries jewels and is worth the trip. Even if you have been lately it's still worth the trip.

Ride safe

Hello!

First off...every happiness to Al and Cindy who have already ridden off into the sunset!!!! Also to Rex and Anita who are sticking with us!!!! Good for us!

There were lots of events these last two months...and many more coming up! Come on out and ride with us! Each day you don't ride is a day you don't ride!

Thanks to Susan Brandt for extra pictures on the Route 62 ride, and to Dwight Furnish (with his new bike), Thomas Lystrup and Anne Haber for the Rock Inn and poppy fields.

Next was the eventful fun filled Morro Bay ride. Pictures came from Paul & Crystal, Josh and Susan.

Marc Sanders contributed to the Bikers Blessing ride, and Don did the BAD event at Burroughs High School without his "lovely co-star". Hee...hee...hee!!!!

Hello Riders,

I would like to stress the importance of keeping the group closer together during our rides. Remember to follow about 2 seconds behind the rider in the lane in front of you. We have had several instances on rides where we have had prolonged separation between riders. This may impact the safety of our rides since the road captain may not be able to assess the situation since he or she may not be able to see the whole group. This may also cause other vehicles to be more tempted to cut us off when passing. One of the causes of the increased separation could be the use of cruise control. Only the lead rider should set the group's speed with cruise control because it can be difficult for others to match that exact speed.

If anyone is uncomfortable riding at the speeds set by the road captain, there is an opportunity to express this during the pre-ride briefing. The road captain will be flexible and may even divide the group into two or more groups. The safety of our rides depends on everyone being able to control their vehicles at the speeds traveled.

Ride Safe,

John

It's a Harley Thing...

Spark, camaraderie, adventure... three simple words used to describe why we became H.O.G. members.

We all had a spark, some defining moment that led us to become part of the Harley Davidson experience and to buy that first HD motorcycle. My spark came when I least expected it, I wasn't even looking at buying a motorcycle, and then a friend of mine pulled up to my house on a brand new black and chrome Road King with the classic Harley "potato, potato" sound of the V-Twin that just blew me away, and I knew at that moment "I just gotta get me one of those!" Now, how do I justify a \$24k plus investment that leaves me vulnerable to the elements, is perceived as a target for four wheel vehicles, and has no real practicality other than a potential for gas savings (at today's gas prices that's 4800 gallons of gas or roughly 94,000 miles for the break even point as opposed to driving the cage the same distance.) so I guess I can rule out gas savings. It all came down to one thing; I wanted to be part of the experience! And for those that don't get it, well they just wont, it's a Harley thing.

The experience manifested itself in a new found camaraderie in a group of like minded people, both internal and external to H.O.G., that share a passion for Harleys. This passion is unlike any other I've seen in the motorcycle community. I had owned imports at one time or another in my life and never experienced such devotion to the machine and those that ride them as I have with Harley Davidson. For the most part, I've found the import riders to be alone in their sport. I know there are groups for them, but they're just not as evident or seem to be as involved with the community as H.O.G. Within our chapter we've developed new friends outside of work and other relationships, a sense of belonging to a charitable and passionate group, and not least, more riding and fun than I've ever had on an import. From the short runs to the overnights, riding with the group as enhanced our motorcycling experience ten fold. And you have to admit; the extracurricular activities such as the charity fund raisers, anniversary picnics, and Christmas parties don't suck. And from what I've heard, the Ridgcrest Activity Group is one of the best and funnest ( I know that's not a real word but it works) branches of H.O.G. to be associated with.

## Josh Cont from page 8

Adventure comes with the whole package. I've had great fun riding with the group, with just one or two other riders, and alone. Each ride can, and is, an adventure in of itself depending on your state of mind. One of my most recent runs with the group turned out to be one hell of a ride through the winding and rolling hills of the central valley to the coast culminating in an impromptu gathering of 17 or so of us H.O.G.s at the hotel sharing stories, eating and drinking the gatherings of fine food and wine, and just a pure belly-laughing good time. We even had the support of the local CHP and Hotel Manager! In contrast, I took a solo ride to Lone Pine on Memorial Day to visit a fallen service member. The air was cool, skies clear, mountains snowcapped, and the cemetery vacant except for me, my bike, and the fallen. This ride allowed me to appreciate the freedoms that we experience and the cost of that freedom. Both examples are "Adventures" and rate high in my book as to the possibilities opened up as part of the Harley thing.

I encourage you to remember your "Spark" and why you became a Harley rider; embrace the "Camaraderie" by participating in the meetings, charity fundraisers, and extracurricular activities; find "Adventure" in each and every ride you make whether on your own or with the group; and above all... RIDE AND HAVE FUN!
